Angela - Here are the website links:

GI Blvd: http://www.nyaqinow.net/StationInfo.aspx?ST_ID=77

Brookside Terrace: http://www.nyaqinow.net/StationInfo.aspx?ST_ID=79

At those pages you can hit the Station Report button and generate reports for a variety of time periods.

Any questions let me know.
Mike

Subject: Re: TCC Followup

We have been collecting at our two long standing monitoring stations in the area. We need to download the benzene data and send to Albany staff for analyzing. The PM2.5 & PM-10 data is real-time and available on our website so easy enough to get them access to. We did not do any monitoring specifically for the shutdown.
